## Profile

Young, energetic developer. Used to work in core banking systems however eventually got fed up with huge, inflexible, 30 years old systems with enormous technical debt. Looking for something new and fresh to get excited about. Especially interested in neural networks and machine learning solutions in general.

## Bachelor's degree

- Focused on elaborating steering algorithm for autonomous cars basing on Neural Networks and Genetic Algorithms
- Required implementing of realistic car models, developing and teaching MLP network in order to provide user-pleasant model of car steering
